

FIG. 1A

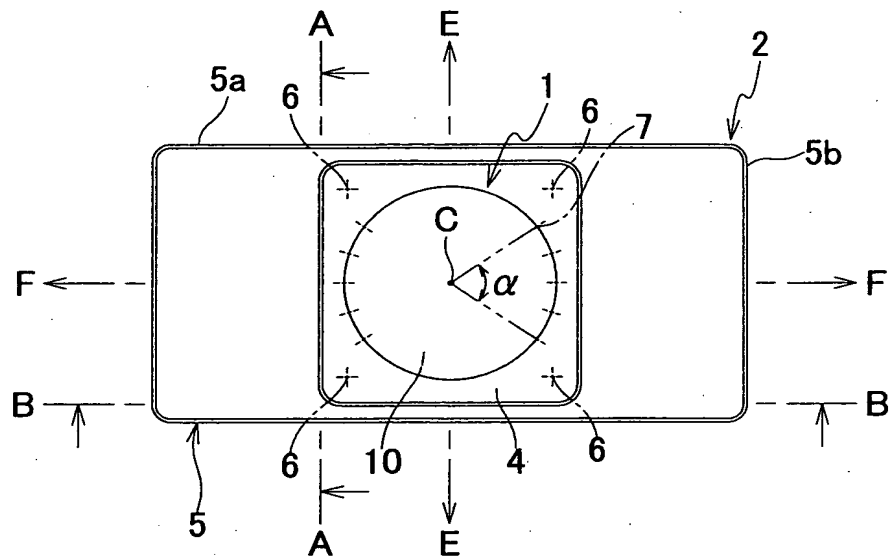

FIG. 1B

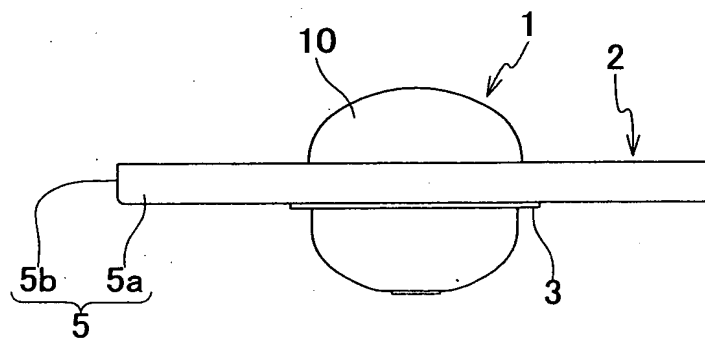

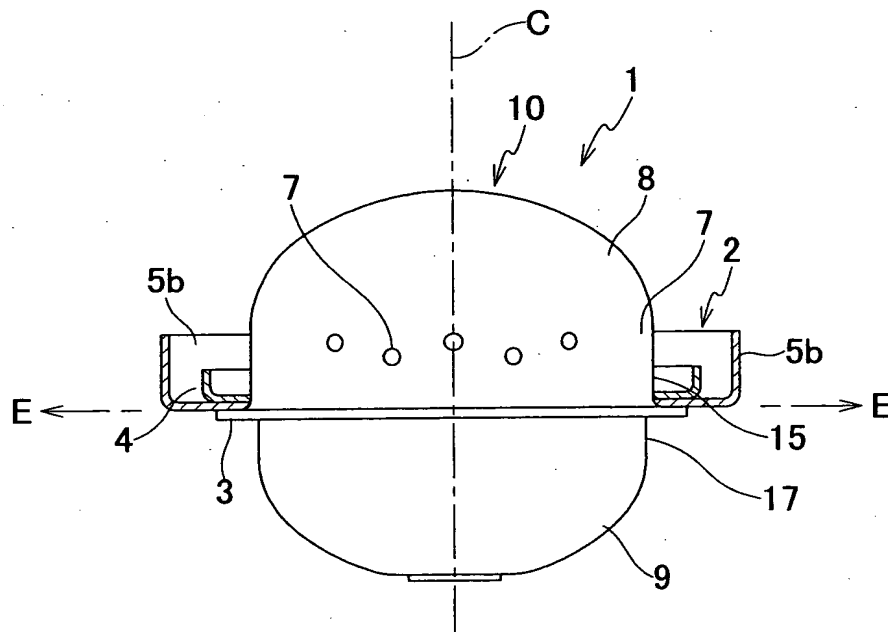

FIG. 1 is a schematic diagram of a first embodiment of a device. It shows a rectangular body 2 with a central circular opening 10. A central shaft 1 passes through the opening. A bracket 5 indicates a section of the body, divided into 5a and 5b. Four corner fasteners 6 are shown. External forces F are applied horizontally, and external forces E are applied vertically.
